

Dr Melisa Tan Mei Jin

Dr Melisa Tan has served in various administrative, finance, policy, and research roles in the Singapore Public Service, non-profit, and social sectors since 2006.

Dr Tan has conducted research on health policy and health systems in Asia, with a focus on Singapore, and the global context. Her specific areas of expertise include governance and policy in the context of non-communicable diseases (NCDs) and COVID-19. She has published two chapters on NCDs and tuberculosis control in edited books launched by the Asia Pacific Observatory on Health Systems and Policies and the European Respiratory Society, respectively. She has also published 14 articles on health policy and systems, NCDs, and COVID-19 in journals such as *The Lancet*, the *British Medical Journal*, and *Nature Medicine*. She has conducted peer reviews of manuscripts for journals.

Dr Tan was an executive committee member of Engineering Good (2014-2016), secretary of the International Society for Pharmacoeconomics and Outcomes Research Singapore Chapter (2017-2018), a member of the Population Association of Singapore (2021-2024), and an associate editor of the *Journal of Migration and Health* (2022-2024).

Dr Tan graduated with a Diploma in Electronics, Computer, and Communication Engineering from Singapore Polytechnic; an Advanced Diploma in Accounting and Business from the Association of Chartered Certified Accountants; a Bachelor of Science (Honours) in Applied Accounting from Oxford Brookes University; and a Master of Science in International Political Economy from Nanyang Technological University. She obtained her PhD in Public Health, with a concentration in Health Policy and Systems Research focusing on governance and policy, from the National University of Singapore.

Dr Tan enjoys thinking, reading, writing, and walking; exploring cultures, history, and nature; and learning new skills beyond her formal training.
